Program Overview

The Harrison School District Two (HSD2) in Colorado's Pike's Peak region is working with a new superintendent and a new curriculum department and is supported by a new school board to institute education reform focused on improving instructional practices and raising student achievement. It is in this environment that HSD2's Teacher Incentive Fund (TIF) grant is being implemented. The HSD2 R.E.A.L. performance-based incentive plan provides incentives in three areas: (1) differentiated compensation based on student achievement gains, which includes recruitment and retention incentives for effective educators working in high-need areas; (2) teacher advancement through professional development, which focuses on the teaching of math and reading, as well as other areas where HSD2 is not making adequate yearly progress (AYP); and (3) high-need and hard-to-staff positions in math and science and other special programs.
